

I close my eyes, for once I don't have to try  
And while wishing for a life, I picture you happy, oh  
In the weeds we walked, your hand running through the moss  
I was so lost in thought but you were there laughing  
You've taken me with you

Can I slow the days? I wish that I'll find the faith  
I'm dying, I'll save your place and you'll never suffer  
We'll stay together

Oh, it's not alright, that one day we're all out of time  
I'll write you another life, I'm sorry for crying  
It's just that I love you  
'One day' can't be far enough

I had lost my sight  
So you sing to me the beauty you'd been seeing  
If I can't stop time and build a world where God cannot take us  
There's no need to think of time

But then you said: "Don't think of the time that's left  
You're spending it in your head, I just want you laughing"  
I'm sorry for crying, I just want you happy

So at last, goodbye  
I'll be happy just to have known you  
And we wished each other well
